🎯 LOCK-IN: Your Ultimate Focus Companion

> **Break free from distractions. Unlock your true potential.**

🌟 What is LOCK-IN?

LOCK-IN is more than just another productivity app—it's your personal focus guardian that helps you reclaim your time and achieve your goals. Whether you're a student preparing for exams, a professional meeting deadlines, or anyone seeking better focus, LOCK-IN empowers you to take control of your digital life.

The Problem We Solve

In today's hyper-connected world, our phones are both tools and distractions:

- 📱 **Average person checks phone 96 times per day** (every 10 minutes)
- ⏰ **3+ hours daily** spent on social media and distracting apps
- 🎓 **Students lose 40% of study time** to digital distractions
- 💼 **Professionals waste 2.1 hours daily** switching between apps

LOCK-IN changes this.

❓ Frequently Asked Questions

Can I really not bypass the app blocking?

With **Strict Mode** enabled, no—that's the point! Regular mode allows you to stop sessions early, but Strict Mode is unbreakable until the timer ends. This helps build real discipline.

What happens in an emergency?

Emergency calls and messages always work. LOCK-IN never blocks essential phone functions—only the apps you choose.

Will this drain my battery?

No! LOCK-IN uses minimal background resources. Most users report no noticeable battery impact.

Can I use it for work apps too?

Absolutely! Block social media during work hours, or block work apps during personal time. Total flexibility.

What if I need to use a blocked app for something important?

Use **Classic Mode** (not Strict Mode) so you can stop the session if needed. Or use the break time in Pomodoro mode.

Do I need to be online?

LOCK-IN works offline for focus sessions. Sync and groups require internet connection.

How is this different from Digital Wellbeing?

LOCK-IN is **actively protective** rather than passive. It blocks apps during sessions, has strict modes, includes AI assistant, group features, and gamification—all designed for serious focus.
